Middle States Objectives 1 and 2: Brief Synopsis

Objective 1: Middle States Accreditation Review Process

By the year 2018, the students at the Charter School of Wilmington will have continued college preparation and success as demonstrated by the number of graduating seniors accepted to colleges and the number of students who return to their 2\textsuperscript{nd} year of college. We will use this data to determine opportunities for improvement in our program that we can change to maintain our student success in college and meet our school’s mission.

The measurement for Objective 1:

1. It is expected that 97\% of our graduating seniors will be accepted to college from high school. The national average for college students who return to their 2\textsuperscript{nd} year of college is 66.7\% according to data collected and published by ACT, Inc. in their 2010 Retention/Completion Summary Tables. We will use the National Student Clearinghouse Student Tracker database to determine the percentage of our students who start their 2\textsuperscript{nd} year of college. Our goal is to remain at or above the national average of returning college students.

Follow up – Objective 1: Goal Achieved

Objective 2: Middle States Accreditation Review Process

By the year 2018, the Charter School of Wilmington students will demonstrate high levels of honesty, integrity, and personal responsibility as measured by:

- 95\% student compliance with each component of the Academic Survey
- 95\% student adherence to the Academic Integrity Policy as indicated by:
  - the number of referrals submitted
  - the number of referrals adjudicated

Follow up – Objective 2: Goal Achieved
